## NINTH DISTRICT.

Interesting Contest for the Demoeratic Congressional Nomination.

WYTHEVILLE, VA., July 22 .- (Speclai.)-The free-silver people predominate largely in this congressional district, and, with few exceptions, the Democrats are supporting the Chicago ticket. A close and complete organization is being made, and everything points to a gallant fight and a glorious victory in the district this fall,

## FIVE CANDIDATES.

There will be at least five candidates before the Democratic Congressional Convention, which convenes in Wytheville August 5th: Judge Samuel W. Williams, of Wythe; Judge G. H. Fudge, of Smyth; Judge W. F. Rhea, of Washington; Judge rahall, of Craig; and Mr. Smith, of

Up to this time not quite half of the delegates have been elected. Wythe, the delegates have been elected. Wythe, Giles, Smyth, Tazewell, Bristol City, and Dickenson have elected, making eighty in all, one third of whom are for Judge Williams. The rest are divided among the other candidates. There will be 181 delegates in the convention; necessary to choice, 24. Williams is undoubtely the leading candidate now, with Rheanext, and then Marshall. If Rhea secures the entire delegation from Washington county (28 in number), he will be a forcidable candidate; otherwise, he will probably be supplanted by Judge Marshall. Bristol, with 5 delegates, has instructed for Rhea. The rest of the county holds primarles Saturday.

Messrs. Marshall, Fudge, and Williams are all expecting delegates from Washington county. On the first ballot, probably, the vote will be: Rhea, 32; Fudge, 17; Smith, 17; Marshall, 38; Williams, £2. the Democrats are confident of electing the nominee, whoever he may be, by a good majority.

Walker's (Republican) majority two years ago was less than one thousands. In that election in three counties alone—Lee. Washington, and Tazewell—2.00 Democrats stayed at home or went fishing. This year every Democrat will go to the polls, and a good, old-time majority will follow.

## TUCKER-FLOOD CONTEST.

Further Details of the Amberst Meeting-An Exciting Time. From the Lynchburg News is taken the following regarding the meeting at Amherst Courthouse to elect delegates to the Tenth District Democratic Congresmonal Convention:

The meeting was called to order at 12 o'clock by Mr. B. R. Harrison, chairman of the County Executive Committee, and from the moment that it was called to order to the close it was characterized by scenes which in the interest displayed and the excitement engendered probably

surpassed any similar meeting ever held in the county. The intense interest feit and displayed in the mass-meeting was due almost entirely to the fact that the selection of the Amherst delegation was the pivotal point in the contest between Congressman H. St. George Tucker and State-Senator H. D. Flood, both of whom are candidates for the nomination.

After the meeting was called to order Mr. H. C. Joyner was elected chairman, and Mr. M. P. Gatewood, secretary. Several sharp sliver speeches, which were accorded most liberal applause, were made by gentlemen who are strong advocates of the white metal. At the conclusion of the speeches an effort was made to ascertain the comparative strength of several candidates, and in an endeavor to accomplish this, a rope was extended, in accordance with a suggestion that seemed at the time to be generally approved, from the stile of the court-house, and the men who were for Judge William Dillard, County Judge of Amherst, were directed to arrange themselves to the right, while the Tucker men were instructed to go to the left. The rogular correspondent of the News at Amherst Courthouse tells the result of this action as follows:

"A regular pandemonium ensued, and continued for some time, but finally quiet was restored. The twenty-three delegates to which the county was entitled were elected. They were instructed to cast their votes for our countyman, Judge William Dillard, as first choice, and, should they see no chance for his nomination, they should support some man who had been and was in favor of the free and unlimited coinage of silver at the ratio of 16 to 1."

Friends of other candidates declare emphatically that the meeting had been adjourned before Mr. Joyner retired, and before any such motion was made. They also claim that when the motion was carried a large number of the delegates had withdrawn from the courtyard, thinking that the proceedings of the meeting had come to a close. Fire on a Steamship.

NORFOLK, VA., July 22.—(Special.)—
The British steamship Manar, Captain Forrest in command, which arrived here last Monday from St. Vincent, Cape Verde Island, for a cargo, and which has been loading grain at the Norfolk and Western elevator since her arrival, was early this morning discovered to be on fire. A tug went to her assistance, and succeeded in extinguishing the flames. About 700 tons of grain were burned.

Lubrication at St. Louis.

(St. Louis dispatch to N. Y. Journal.)
It is paradoxically asserted that the same lubricant that made affairs so smooth last June is now being used to prevent and obstruct Populistic endorsement of the Democratic ticket. Said Matt. Ward, of Nebraska, to Governor Stone, of St. Louis. "If it was not for Mark Hanna's money we would have this fight won now. It is won as far as Bryan is concerned."

Replied Governor Stone: "I have heard vague reports of money being used, but I have thought little of it. I have heard no dennite statements."

"They are spending barrels of it," concluded Ward, "and there are no bottoms to the barrels." Lubrication at St. Louis.

EXCITEMENT IN NEWTOWN OVER A NEGRO'S STRANGE DEATH.

ing-Matters in the Courts-Personal and Other Items.

Quite a sensation was created in New town, just beyond Manchester, last evening by a rumor to the effect that Peter Dean, a colored man, who died at his home, 2308 Canal street, about 5 o'clock, had been poisoned.

Dean was employed at one of the T. C. Williams Company's tobacco factories in Richmond, and on Tuesday bought a piece of pie and a plate of soup from one of the women who sell mid-day lunches to the factory hands. Dean was taken sick about 3 o'clock yesterday morning and his suffering was intense. About 1 o'clock in the afternoon he was taken with spasms, which lasted until his death, which occurred shortly before 5 o'clock. Last evening Coroner John W. Brodnax was notified that a man had died as a result of poisoning, and he died as a result of poisoning, and he was soon upon the scene. A careful examination of the excited and superstitious witnesses, however, revealed the facts in the case, and removed all doubt or mystery surrounding the man's death. The Coroner came to the conclusion that the man had come to his death from natural causes. When the Coroner rendered his decision, deeming an inquest unnecessary, the nexroes seemed greatly pacified and the intense excitement soon began to subside. The negro was a fine-looking man, about 24 years old. His remains will be interred to-day.

THE MAYOR'S COURT. THE MAYOR'S COURT.

THE MAYOR'S COURT.

The case of Thomas Napier, which has been pending in the Police Court for some time, and which has afforded so much amusement for the daily spectators in that court, was again called yesterday morning. Tom was to answer the awful charge of throwing rocks at Mr. 8. S. Carter's horse, and his attorney, Mr. Lawrence Pool, was present to defend him. Tom is a notorious little character, and he has been a prisoner in the Mayor's Court more than once before. Both of his parents are dead, and he lives with his aunt, on Hull street, Taking all things in consideration, the Mayor all things in consideration, the Mayor thought the best thing he could do with Tom was to send him to the reformatory, at Glen Allen. The boy's guardians objected to this, and Mr. Lawrence Pool at Glen Alien. The boy's guardians objected to this, and Mr. Lawrence Pool
argued in the negative. No witnesses
were called for the defence, and after the
testimony had been produced to show
that the boy hit the horse, his Honor
called on witnesses to testify as to his
general character. The attorney for the
defence objected to this, but the witnesses
were heard, and the Court announced
that Tom would go to the reformatory.
Mr. Pool took an appeal to the Hustings
Court. Tom's case will be heard in the
Hustings Court to-day.

Grain, Tobacco, Cotton, Cattle, Country Produce, &c., Foreign and Domestic.

NEW YORK, July 22.- The security

markets were characterized by a better tone, and the efforts of the belated bears to check the rising tendency proved abortive. The latter made a vicious raid on Jersey Central, in the hope of starting liquidations afresh, and the stock was orced down from 90 1-4 to 87 3-4. The generai list refused to sympathize, and late in the day, when the stock named got back to 92, the bears were again buyers. The strength of the market resulted partly from the success which has attended the bankers' plan to sustain the gold reserve, nearly \$8,000,000 of the gold pledged being deposited at the Sub-Treasury up to 3 o'clock, and partly from the announcement that foreign bankers were willing to co-operate with local capitalists in this important matter. It will be the work of the latter to check gold exports

by the way the chaggement of excelved. The heavy withdrawals caused scarcely a ripple of excitement, and had not the slightest influence on stock values.

At the opening the market was also sustained by purchases of 10,000 shares of international stocks for London account. Our securities ruled fractionally higher there, which was an agreeable surprise, in view of the break here at the close yesterday. Pending definite statements from the conference of foreign bankers at Mr. Morgan's office, the market dragged, but when it was reported that an agreement to control sterling exchange had been reached, prices advanced all along the line.

The Tred Avon on Her Way Here Colonel Boykin's Title Changed.

The Baltimore Steam Packet Company's steamship Virginia is still on the rocks below Dutch Gap, or was there when last heard from, though the Megritt Wrecking Company people stated yesterday that they expected to float her at high tide last night. Gentlemen who have been down to see the boat say, however, that she can never be moved until the rock is blown away. This, it is said, can be done without endangering the boat.

The traffic on the line is not being interfered with by the helay in getting the Virginia off. The Tred Avon left Baltimore on schedule time yesterday, and is expected to arrive here this morning.

The cut in rates has attracted many passengers, and the indications are that the Tred Avon, when she sails on the return trip this afternoon, will carry a large number of Richmonders, bound for the Monumental City.
